## Disclaimer

- For 25/26 this page has been expanded to include clinical staff on the Primary Care Performance and Quality Report
- All Qualified GPs includes Salaried and Partner GPs. It also includes GP retainers, regular GP locums and NHSE category "All regular GPs"
- The GP figures do not include flexible workforce, i.e. full time "non GP practice attached" GP Locums (Headcount 84 on Flexible Pool report from NASGP)
- A breakdown of roles and FTE funded through ARRS was available historically but it is not currently produced by NHSE.
- With changes to PCN DES there is a small number of GPs under ARRS (newly qualified with strict eligibility criteria) and a small number of nurses (newly qualified/new to practice, a few advanced practitioners and nursing associates). Overlap with Nurse/GP WTE should be minimal.
